Kitchen Box

Ran out of something? Need to remember something? Tell Alexa!

1 Add one thing

“Alexa, ask Kitchen Box to add _____.”

Alexa says “Added …” and you're done.

2 Add lots of things

YOU	ALEXA	YOU	YOU, WHEN DONE
“Alexa, open Kitchen Box”	**“What should I add?”**	**“add milk” “add bananas”**	**“no”**

3 Things you can say

- add oat milk
- we're out of dish soap
- we need diapers
- buy paper towels
- remind me to book the dentist
- add batteries for the toy digger

🛑 To finish

Say **“no”** or **“stop”**. If you just say one thing (step 1), Alexa finishes by herself.

💡 Tips

- Say **“ask”** or **“open”**, not “tell”.
- One thing at a time works best.
- Speak clearly. Alexa writes exactly what you say.

For grown-ups: everything goes into the “Kitchen Inbox” Google Sheet. Ankita's assistant checks it every morning and adds things to the shopping baskets. Please don't use Alexa's own shopping list for these. Plain “Alexa, add milk” (without “Kitchen Box”) goes there instead.
